Glen Allen, VA. 23059

Edited and Approved April 12, 2026

Richmond Area Radio Control

Operating Rules

In addition to the regulations published in the AMA Official Model Aircraft Regulations Handbook, THE FOLLOWING RULES MUST BE FOLLOWED: These rules are designated as a part of the club's bylaws.

- (1) All engines must be equipped with a functional muffler. An engine considered excessively loud in the opinion of any club officer or appointee may not be run at the field.
- (2) Student flyers may not fly in the presence of spectators without the assistance of a flyer of pilot or instructor status.
- (3) Extreme caution must be exercised whenever taxiing into or out of the pits. When returning to the pits, engines should be stopped twenty feet from the pit area. Helicopters must be carried either to the hovering pad or runway before commencing any flight operations.
- (4) Pilots on the flight line must stand in the pit boxes or no further than five feet to either side. [●] Up to two pilots may fly airplanes from the designated flying positions located near the downwind end of the flight line. These pilots must be accompanied by a spotter. No more than five pilots may fly airplanes at any time.
- (5) Takeoffs must be away from the pit, spectators, and parking areas. Flight of any sort including landing approaches may not be toward or over the pit, spectators or parking areas. NO hand launches will take place from the pit or spectator areas.
- (6) Before crossing or going onto the runway, ample notice must be given to all pilots flying. Notice must again be given when the runway is clear.
- (7) Everyone, including pilots, non-flyers guests and spectators is expected to help the club keep all areas of the field clean and free of trash.
- (8) Good Judgment and common sense must be exercised at all times. Anyone observed creating a safety hazard, damaging club property or failing to observe club rules will be required to leave the field and will be subject to expulsion from the club.

□Amended after March meeting, 2026. See bylaws amendments.
